About Us

GP Synergy is a leading provider of general practice training funded by the Australian Government to deliver vocational training to doctors seeking to specialise as general practitioners across NSW and ACT from 1 January 2016.

We are committed to building a skilled general practice workforce by delivering a high quality education and training program that is responsive to regional population health needs.

Our organisation is underpinned by our values - respect, excellence and initiative.

The Role

GP Synergy is seeking a committed and experienced Senior Dotnet Developer who shares our values, to join our IM/IT team in our Liverpool office.

Reporting to the Business Systems Analyst, the Senior Dotnet Developer is responsible for the development of enterprise systems in an agile environment and maintaining end-to-end solutions based on business functional requirements.

The Senior Dotnet Developer also delivers technical solutions to IT functions and other business processes using the best design and development practices.

He/she must have the ability to manage multiple competing tasks, and have knowledge of analysing, defining, and executing technical solutions.

Selection Criteria

To be considered for this opportunity, applicants must meet the following criteria:

- Tertiary qualifications in Information Technology
- Extensive experience using various software design and development methodologies and tools using .NET technology
- A good understanding and experience working in an agile delivery environment specifically using Scrum methodology
- Current unrestricted motor vehicle licence and own transport.
