About us

GP Synergy is a leading provider of general practice training funded by the Australian Government to deliver vocational training to doctors seeking to specialise as general practitioners across NSW and ACT.

We are committed to building a skilled general practice workforce by delivering a high quality education and training program that is responsive to regional population health needs.

Our organisation is underpinned by our values - respect, excellence and initiative.

The role

GP Synergy is seeking a committed and experienced IT Project Officer who shares our values, to join our IT team.

Reporting to the Business Systems Manager and working with the Chief Information Officer and other Information Management and Information Technology staff, the IT Project Officer contributes to a variety of complex projects with a primary focus on systems development and project delivery.

The IT Project Officer must have a high degree of project management skills including agile and waterfall skills to carry out the following key functions of the role:

- act as a scrum master in an agile environment in order to manage rapid project delivery
- manage and deliver multiple small to medium projects simultaneously
- contribute to the reporting of the IM/IT function and its' overall project management.

He/she must have the ability to manage multiple competing tasks, a professional attitude and good communication skills.

Selection criteria

To be considered for this opportunity, it is essential that applicants meet the following criteria:

- tertiary qualifications in Information Technology
- relevant and current experience in project management skills including agile project management using scrum methodology
- work experience with Visual Studio Team Service (VSTS).

Very occasional travel including overnight travel may be required.
